Heads State Association
Rev. Louis A. Dole, who has been elected president of the Maine Association of the Church of the New Jerusalem, is the son of Rev. George H. Dole of Wilmington, Del.

When 10 years old his father became the pastor of the Church of the New Jerusalem at Bath, and soon the family came to that city to make their home. He and his twin brother, George S. Dole, attended the schools at Bath, and later entered Yale college, where they were noted for their intellectual ability and also for their interest in athletics.

After his graduation from college he entered the New Church Theological School at Cambridge, Mass., where he graduated after a course of study of three years. He has been connected with the celebrated preparatory school in Pottsdam, N. Y., and with the university schools of Urbana, O. He was married a few years ago to Anita Sturgis of Chicago, a graduate of Chicago University. She has also been a teacher and is much interested in music.

Rev. Mr. Dole accepted a call to the pastorate of the Church of the New Jerusalem at Fryeburg in the summer of 1920, and he began his labors as pastor on Sept. 1. His sermons and ministrations are very acceptable to the people, and he will continue in the pastorate. He delivered a course of four lectures at the recent summer school of the Maine Association of the Church of the New Jerusalem that was held at Fryeburg.

Buildings Burned

A fire started Wednesday afternoon, in the barn and destroyed the farm buildings of John Ojala, situated on the Portland road about four miles from here. Ojala lost all his live stock except his cows, which were in the pasture at the time. The animals burned to death included a pair of valuable horses, several calves and some pigs. Ojala said there was no water for the neighbors who came to fight the fire. They were unable to save anything and even the spare clothing of the family was destroyed. The loss will be near \$4,000 with partial insurance.

PLEASANT MOUNTAIN HOUSE

The Fire Station on Mt. Pleasant near Bridgton and Denmark has been a great source of interest to the mountain climbers this summer. Lewis A. Walker is the State fire warden and makes observations from his lofty perch on the summit of Mt. Pleasant. He has reported several fires, one near upper Kezar, in Lovell, which would have caused much loss of timber and pulp wood had it not been discovered promptly.

The observatory used by the fire warden is reached by the Warren trail, the entrance near the Mt. Aqua House. This is very picturesque and is well known by those who climbed the mountain in the days of the hotel which formerly stood on the site where the observatory now rises. Half way up, near a delicious spring of water, a log cabin has been built for Mr. and Mrs. Walker, and this is called Pleasant Love Nest. This is the second year which the young couple have lived on the mountain, coming here after their marriage, and it is an ideal place for a honeymoon. Both are intensely interested in the Warren Trail and the scenic beauties to be seen from the top of Mt. Pleasant, also making friends with the birds and the wild flowers to be found in various places. The view from Mt. Pleasant on a clear day is very fine, hundreds of lakes being seen and Portland Harbor clearly visible with binoculars. It is 2,007 feet in altitude, but covers a wonderful stretch of country.

MENACE OF THE DRUNKEN MOTORIST

The menace of the intoxicated motorist cannot be dealt with too severely. He has long since ceased to be merely a nuisance—he is a scourge. It is difficult for persons of ordinary sanity and intelligence to realize that drivers and owners can be so indifferent or reckless as to allow themselves to get under the influence of liquor in the slightest, while they are responsible for a motor car's operation, especially as they and their companions may be, and often are, the victims of the criminal folly.—Providence Journal.

Harry Hall of Buckfield, who was recently appointed U. S. internal revenue for the Oxford county district, has taken up the work with Eugene Cronin collector for the Androscoggin district, preparatory to his going to Rumford, where he will make his headquarters.

Fordson

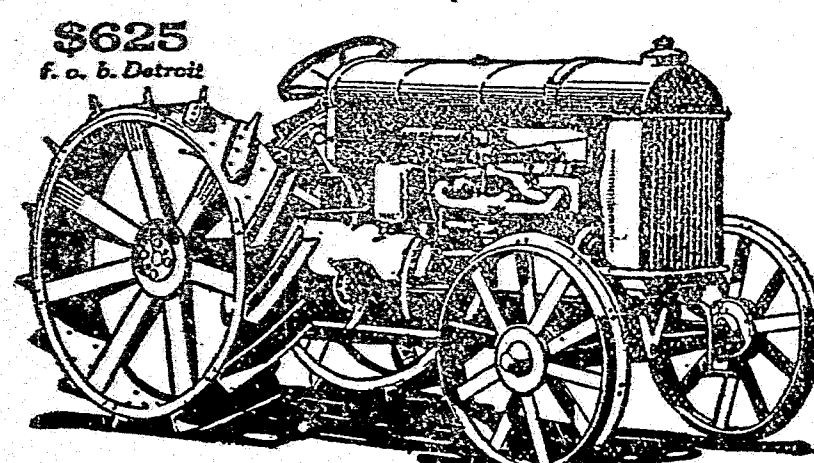

Put it to any Power Task

While the Fordson Tractor has power in plenty to drag plows and harrows through the heaviest soil, it is light enough, small enough and so easily controlled that it can handily be put to many tasks about the farm, that will save you time, money and work.

In fact the Fordson will do every power job, both draw-bar and belt, more quickly and at less cost than it can be done with any other form of power. So every month the whole year 'round the always dependable Fordson will prove itself a paying investment, because of its capabilities, its economy and efficiency.

We will gladly explain and demonstrate to you the many Fordson money-making, time-saving features. Call, write or phone.

Variety Shower

A variety shower was given Pearl P. Cook, Thursday evening, by Mrs. R. Shaw at the home of her parents, Mr. and Mrs. Edward N. Carroll, on Cottage street in honor of the approaching marriage of Miss Cook to Scott Kilburn.

An invitation had been given Miss Cook to attend a variety party at the Carroll home. The surprise was complete as Miss Cook stepped unsuspectingly into the room filled with about thirty friends, who had gathered for the occasion.

The living room was decorated in red, with bouquets of red flowers, and red hearts were strung from the center chandelier to the corners of the room. A contest of "hidden flowers" furnished amusement as well as a test for wits. Mrs. Annie Sessions won the first prize and Mrs. Edna Maxin the booty.

In a game of hearts, Miss Cook was asked to find all the hearts. The hearts were distributed, these all being attached to a string, and following the string, Miss Cook found a package at the end.

Some forty of these lines were followed and on removing the wrappings he found a beautiful assortment of gifts, in silver, cut glass, pyrex ware, aluminum, china, linen in wide variety, and other articles.

Several gifts were received from friends out of town, who were unable to be present during the evening.

After all the hearts were found the guests were invited to the dining room, which was decorated in pink. Pink streamers over the table with pink shades over the lights, were arranged tastefully, and a blue light in the center added to the beauty of the scheme. Refreshments were served. The remainder of the evening passed with sociability and ended with congratulations for the bride-to-be. Those in the party were, Mrs. Edith Sadler Donahue, Mrs. Claribel Sanborn, Helen Holmes, Mrs. Frances Bartlett Twitchell, Mrs. Geneva Partridge, Irene Locke, Mrs. Annie Andrews, Mollie Downing, Maude Mixer, Mrs. Sadie Waters, Mrs. Helen Burroughs, Mrs. Marion Whitman, Mrs. Blanche Smith, Charlotte Lovejoy, Mildred I. These Are Interesting Days

Equally interesting to us as to those who visit our store and view the new merchandise as it is unpacked and distributed.

The new season always holds much of promise and especially so in a store like this where concentrated efforts have resulted in a steady and unbroken growth from year to year and a certain development along the line of superior service.

The Essex has always been an outstanding value by every standard of price and quality comparison.

Since its reduction of price this advantage is even more evident. Especially interesting now is a price to price measurement of the Essex against cars you have regarded as comparable to it in quality.

Will you today find any car that even approaches Essex in quality and ability, within hundreds of dollars of its cost?

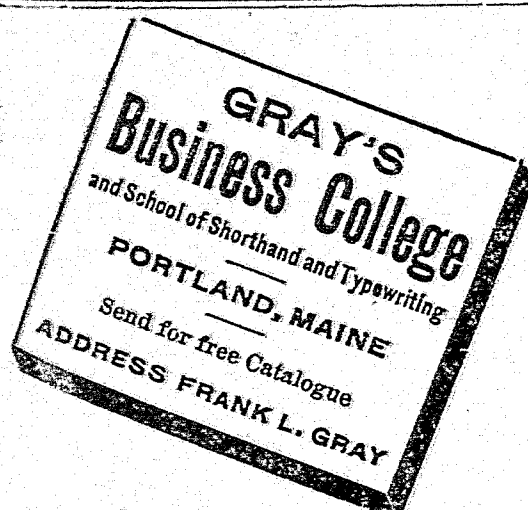

And doesn't its low cost with such quality appeal to judicious buyers, whether they are considering a car slightly less in cost, or have been seeking Essex quality in some much costlier car?

625,000 BOTTLES SOLD IN NEW YORK

Biggest Thing of Kind Ever Seen in That State, Declares Big Wholesaler

The fact that 625,000 bottles of Tanlac have been sold in the state of New York since its introduction there less than one year ago, is a big business item that will attract unusual attention throughout the entire East, for nothing like it has ever happened before. It breaks all records.

Mr. George B. Evans, manager of the Gibson-Snow Company, the well-known wholesale druggists, with branches in Albany, Buffalo, Rochester and Syracuse, recently announced that the preparation was now selling in their trade territories alone at the phenomenal rate of approximately 500,000 bottles a year.

"If the present rate continues," said Mr. Evans, "this state alone will probably require considerably over 750,000 bottles a year. This is a tremendous figure, but I am really conservative in making this statement."

Tanlac is sold by A. L. Clark Drug Co., Norway; Stowell Bros., Locke's Mills; R. E. Pinkham, East Waterford; W. H. Brown, East Stoneham; Heald, Stearns & Kimball, Lovell; H. L. Hutchins Co., North Fryeburg; L. R. Rounds & Co., Waterford, and F. G. Barrett, Welchville, Me.

An Easy Way

To Reduce Flesh

Drink Hot Water and Take Tassco

Haven't you often wished for a medicine to reduce your flesh? Something that does not require dieting or calisthenics? Well, right here you have it in 5-grain Tassco Tablets, which you may secure at A. L. Clark Drug Co. They are pleasant to take, perfectly harmless and cause no restrictions of habit or eating, and reduce the flesh, little by little, until you are down to the number of pounds you wish to weigh. Too much flesh is undesirable as most stout people will readily admit, and it detracts from one's good appearance; makes one clumsy and short of breath.

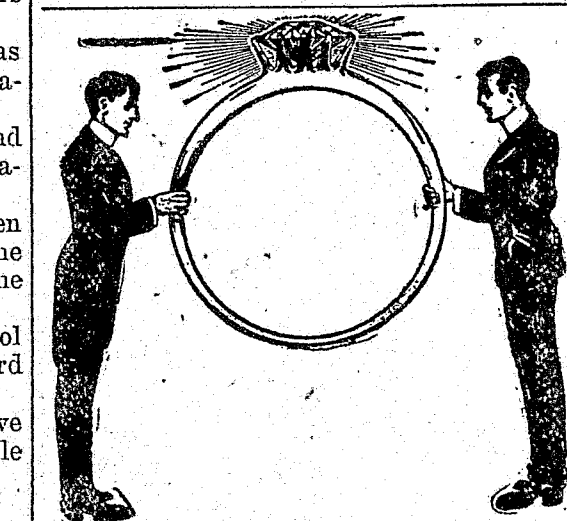

There isn't any reason why anyone should be too stout, when there's this much-tried, perfectly satisfactory remedy at A. L. Clark Drug Co. Tassco Tablets (don't forget the name) are recommended by physicians and are guaranteed to be perfectly harmless. Refuse substitutes, if you can not come to our store, we will mail Tassco to you.

The Lure of BIRTH STONES

SEPTEMBER

The son or daughter of this month should wear sapphires that are blue as blue flowers. The sapphire is noted as a regal gem. Kings have worn it about their necks as a powerful defense against harm or danger. Helen of Troy wore a rare star-sapphire as a pendant. And it has taken the greatest epic poetry to recount her capture of Paris, who carried her to Troy; whence across the Trojan war incited in her defense by her numerous suitors.

Read These A B C Rules About Batteries

Adjustment and oiling make your bearings last longer—proper inflation and careful driving make your tires last longer—cleaning makes your spark plugs serve longer and better. It is worth remembering that there are rules just as simple for making your battery last longer and serve more faithfully.

Here are three rules in A B C form:

1—Put in water regularly and keep up the charge.

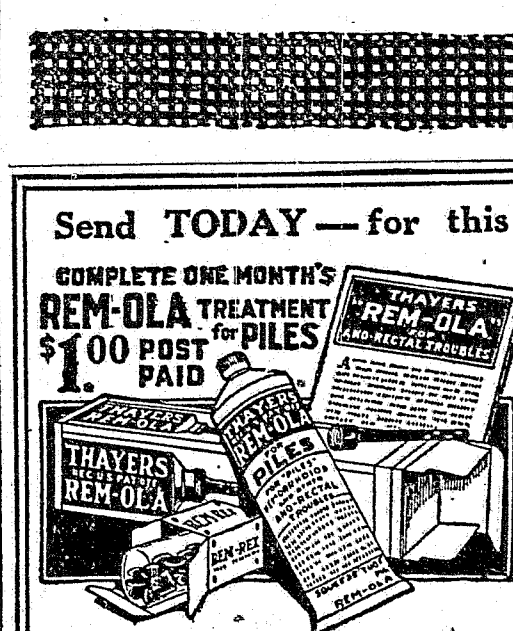

2—Come in every two weeks for battery service.

3—And when your present battery wears out, buy a Willard Threading Rubber Battery—the only battery with Threading Rubber insulation between the plates.

There is only one battery good enough for us to back by our unqualified recommendation—that's the Willard Threading Rubber Battery. Come in—and we'll show you some records it has made right here.

Harry Rust W. R. C. met in regular session Thursday evening at Leghorn. It was voted to serve the annual Harvest dinner and supper during the second week in October with the executive committee, Mrs. Edith Edwards, chairman in charge. It was planned to have installation of officers, but owing to the absence of one officer who was out of town, this ceremony was postponed to next meeting.
